

WHY CHANGE? WHY **HARRISON**? WHY NOW?

- **Proprietary HEAVY DUTY SHAFT COUPLING** is engineered for the harsh Oil & Gas market; *"We have reduced shaft failures and shaft fretting seen in the field dramatically!"*
- **Proprietary RESERVOIR TECHNOLOGY.** We have dramatically reduced the size of the reservoir needed. Lower cost, less weight, takes up less room.
- **TURN KEY Solution.** A complete hydraulic generator package that controls frequency better than any other generator in the industry, reducing warranty claims dramatically!
- **SIMPLIFIED CIRCUIT** removing common failure points as seen with complicated electronic controls!
- **100% TESTING** of every unit shipped!
- **ELECTRONIC DIAGNOSTICS.** Plug-in diagnostics providing troubleshooting information in the field!
- **CUSTOM PACKAGE.** This is not a "One-Size-Fits-All" package! This is a complete TURN-KEY solution; or if needed, independent components are available.
- **SHORT LEAD TIMES.** "Just-In-Time" deliveries are available; no need for you, the Customer, to stock extra inventory for long lead time components!
- **GREAT PRICING.** We sell thousands of hydraulic generators for many different industries, and, we pass on the volume discount savings to you! You are basically buying DIRECT!
- **BEST WARRANTY** in the industry. "Harrison gets the customer back up and running first, and then we worry about who pays for the repair bill."

Clean Power Technology
