

HYDRA-QUBE

What Is The Hydra-Qube

The **"QUBE"** is a compact, lightweight, highly efficient **ALL-IN-ONE HYDRAULIC CONDITIONING SYSTEM**. The **"QUBE"** consists of a heat exchanger, reservoir and oil filter, packaged into a single unit, that is easy to mount, and easy to integrate into your work truck.

Why Do I NEED The QUBE

- ✓ The **"QUBE"** gives you a smaller package by REPLACING THE TRADITIONAL HYDRAULIC RESERVOIR.
- ✓ The **"QUBE"** uses up to 20x LESS HYDRAULIC FLUID THAN A STANDARD RESERVOIR; yet allows the same flow (GPM)..
- ✓ The **"QUBE"** REDUCES THE WEIGHT OF YOUR TRUCK.
- ✓ The **"QUBE"** REDUCES FUTURE COSTS OF HYDRAULIC OIL.
- ✓ The **"QUBE"** lets you DO MORE WITH YOUR WORK TRUCK.
- ✓ **The "QUBE" is for YOU!!!**

QUBE SR

- 50 GPM

QUBE JR

- 25 GPM

Design Benefits Of The QUBE

- ✓ Open-frame modular design offers immediate service access.
- ✓ Open-frame modular design provides best-in-class air flow .
- ✓ 12 VDC powered fan instead of a hydraulically driven fan.
- ✓ 12 VDC powered fan increases fan life and reduces long term maintenance.
- ✓ Uses only 3-5 gallons instead of 40+ Gallons.
- ✓ Top access oil fill & filter for maintenance.

"Clean Power Technology".

QUBE Specifications

Model: HQ-50 **QUBE SR**

- ✓ 20.5" H X 19.0" W X 16.0" D | 90.5 lb
- ✓ Mounting: Bottom or Back
- ✓ Port Connections: Bottom
- ✓ Flow Rate: 1-50 gpm
- ✓ Airflow: In or out

Model: HQ-25 **QUBE JR**

- ✓ 17.0" H X 15.6" W X 16.7" D | 69.5 lb
- ✓ Mounting: Bottom or Back
- ✓ Port Connections: Bottom or Side
- ✓ Flow Rate: 1-25 gpm
- ✓ Airflow: Out

Cooler

- ✓ Fan: 12 VDC
- ✓ Motor Capacity: .26 kw
- ✓ Amp Draw: 22.5 amp
- ✓ Recommended Fuse: 25 amp
- ✓ Protection Class IP: 67
- ✓ Thermostat: 130°

Reservoir

- ✓ Capacity: 3-5 gallons
- ✓ Anti-Splash Filler/Breather: 1.5" high
- ✓ Filter: In-tank

QUBE Options

- ✓ Pop-up filter dirt alarm
- ✓ Pusher fan or puller fan (QUBE SR)
- ✓ Back or bottom mounts
- ✓ Low oil level switch
- ✓ Three sided oil level gauge

Why Change, Why Harrison, Why Now
