

## WHY CHANGE? WHY **HARRISON**? WHY NOW?

- Revolutionary HEAVY DUTY SHAFT COUPLING engineered for the most demanding markets; *"We have reduced shaft failures and fretting seen in the field dramatically!"*
- TURN KEY Solution. A complete hydraulic generator package that controls frequency better than any other in the industry, reducing warranty claims dramatically!
- SIMPLIFIED CIRCUIT removing common failure points seen with complicated electron controls.
- 100% TESTING of every unit shipped.
- ELECTRONIC DIAGNOSTIC capabilities allowing immediate identification of issues in the field.
- CUSTOM PACKAGE. This is not another "One-Size-Fits-All" package. This is a complete TURN-KEY solution; or independent components are available.
- SHORT LEAD TIMES. "Just-In-Time" deliveries are available. No need for you, the Customer, to stock extra inventory for long lead time components.
- BEST WARRANTY in the industry. "Harrison gest the customer back up and running first, and then worry about who pays for the repair later."
