

# Mobile Power

Where you need it. When you need it.

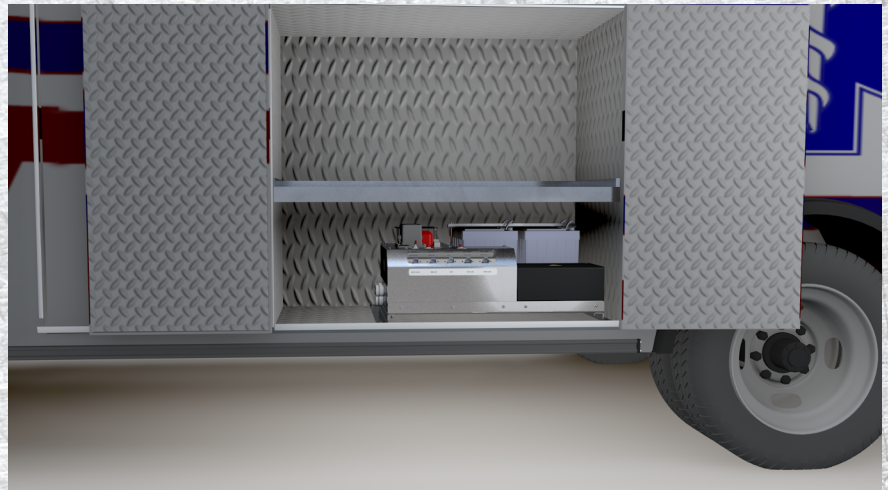

**hPower**

## Introducing The Harrison hPower Tray Mount

Harrison Hydra-Gen's newest member of the **hPower** family is our 12V or 24V Tray Mount.

Built to fit in compartments with electronics that are high above floodwater levels.

The Harrison **hPower** Battery Energy Storage System is built with the safety of ambulance crew and patients in mind!

**hPower** is a battery energy storage solution that provides power for your electrical demands when your engine is off and a critical component of your automatic start/stop system or emergency backup plan.
