

IF YOUR GAS
GENERATOR HAS YOU SAYING

**“THERE’S
GOTTA BE A
BETTER WAY,
DANG IT.”**

**SWITCH TO HARRISON
HYDRAULIC GENERATORS**

Harrison
HYDRAULIC SOLUTIONS

PMG-SERIES
THE SUPERIOR HYDRAULIC GENERATOR

THE “GREEN” ALTERNATIVE

If you find yourself thinking,

“It’s a hassle to switch from gas to hydraulic generators.”

Think again. Harrison Hydraulic Generators are less of a hassle for you in the long run. Additional fuel, on-going maintenance, and theft with gas generators - now that’s a hassle. Plus, with Harrison, getting your fleet equipped is easy.

1 There’s No Need to Hire a Team of Hydraulic Experts

Harrison will deliver a custom solution and provide the testing, prototyping, documentation and training needed for integrating into your business. With successful experience working with major OEMs and end users of the equipment, Harrison generators are proven to be reliable and dependable.

2 You Can Customize Your Hydraulic Generator

Every generator up to 40kW is designed to our customer’s specifications, from modular options to completely customized units.

Examples of Some Industries that use Harrison Hydraulic Generators:

- Utility & Telephone
- Public Works
- Construction
- Aerial Work Platforms
- Mining
- Oil & Gas
- Military & Government
- Fire & Rescue
- Railroad
- Marine
- Crane
- Airport Rescue and De-Icers
- Scrap
- Tow
- **The “GREEN” Alternative**

“Enough fancy talk, give it to me straight.”

Easy Integration Into Your Existing Fleet:

- Use it with existing hydraulic circuits or as a complete hydraulic system
- Operation with fixed or variable pumps
- With attached, detached, or no electrical box
- Can be spec'd into new equipment or retrofitted into existing equipment
- Available up to 40kW
- Flexible design attaches to bumpers, truck beds, or hanging from the bucket

Harrison Hydraulic Generators Compared to Gas & Diesel Generators:

- Approximately 50% smaller in size
- Approximately 50% less weight
- Portable
- More reliable
- Start in cold weather
- Virtually maintenance free
- Virtually theft proof
- Less noise and vibration
- Less maintenance cost
- Longer life cycle
- Power on the fly or parked
- No added air pollution or exhaust
- Leaves no additional carbon footprint
- No secondary engine or fuel tanks
- Brushless

“You have my attention. So, which model is right for me?”

We'll let you decide, because Harrison Hydraulic Generators are low cost and easy to install.

- The Mounted Generator: permanently attaches to your truck
- Tool Circuit Generator: attaches to existing tool circuits and is detachable for portability and flexibility. *Turn to the back cover for more information.*

You can save space, money, and weight without sacrificing simple, reliable mobile AC power. That's why Harrison's PMG-Series Hydraulic generators are the right choice over any gas generator since 1969.

“Compare the PMG-Series to my current gas generator.”

	PMG Hydraulic Generator	Gas Generator
Length	17.7"	26"
Width	7.4"	20"
Height	9.6" (8.4" with electrical box)	21"
Weight	60 lbs.	139 lbs.
Prime Output (kW)	3.5	3.0
Output Voltage	120/240 (Vac)	120/240 (Vac)
120V (20A) Receptacles	4	4
120V (20A) T-Lock	Option	1
240V (30A) T-Lock	1	1
Resettable Circuit Breaker	Yes	Yes

Introducing the PMG Tool Circuit Generator.

If you find yourself wondering,
“What makes it so special?”

The Tool Circuit Generator allows for flexibility and because it doesn't have to be permanently mounted, it can be there when you need it and out of the way when you don't. With quick disconnect hoses and the ability to hang from a bucket or quickly connect to a hydraulic tool circuit, it can go wherever you need it to go - bumpers, truck beds, or hanging from the bucket. Talk about special.

The PMG Tool Circuit Generator:

- Can be checked out like any other hydraulic tool
- Requires virtually no maintenance
- 50% lighter and smaller than gas generators
- Has no gas emissions
- Emits little noise or vibration
- Virtually theft proof
